---

All-in-one outdoor ESS solution with 40kWh LiFePO<sub>4</sub> battery and 20kW hybrid inverter, ideal for C& I, microgrid, and grid-side applications. Supports solar charging, EMS control, and remote monitoring.

It features a robust energy storage capacity of up to 40KWh, ensuring uninterrupted power supply even during grid outages. The system supports multiple energy inputs, including photovoltaic, wind, and

The CX-CI001 lithium battery energy storage cabinet can be customized for on-grid/off-grid operation mode, provides UPS functions, and can be flexibly expanded.

The industrial and commercial energy storage system mainly consists of batteries,

The SFQ ICESS-S 40KWH/a energy storage cabinet is a modular energy storage device designed for commercial and industrial scenarios, with a compact cabinet structure, efficient energy management

It enables the efficient use and storage of surplus energy from your solar system to reduce your electricity costs in the long term. Thanks to the integrated heating system, the battery remains

40KWh battery stackable energy storage with 5kw solar inverter on top layer, high energy density, for residential and commercial use.

All-in-one outdoor ESS solution with 40kWh LiFePO<sub>4</sub> battery and 20kW hybrid inverter, ideal for C& I, microgrid, and grid-side applications. Supports solar

It adopts a modular design, compatible with multi-source input and output of mains, photovoltaic, and energy storage, and can be flexibly configured according to scene requirements to provide
